

AVIATION FOUNDATION COURSE

Our Aviation Foundation Course is designed for students interested in working towards their commercial aeroplane or helicopter licence. This is an entry-level course for students with little or no aviation experience and is based on the Australian Civil Aviation Safety Authority (CASA) requirements.

Our tailored curriculum has been developed by industry professionals and provides students with a meaningful introduction into the theoretical and practical aspects of aviation.

COURSE: AVIATION FOUNDATION

DURATION: 8 WEEKS

MODULES: Aviation English
Meteorology
Navigation
Radio Telephony
Flight Rules & Air Law
Aircraft General Knowledge
Aerodynamics
